Value them Both—The Amendment

Below is the full language of the bill to be voted on by the people once approved by the legislature. Only the paragraph in **bold** will be added to the Kansas Constitution.

WHEREAS, This proposition to amend the bill of rights of the constitution of the state of Kansas shall be known and may be cited as the Value Them Both Amendment.

Now, therefore:

Be it resolved by the Legislature of the State of Kansas, two-thirds of the members elected (or appointed) and qualified to the Senate and two-thirds of the members elected (or appointed) and qualified to the House of Representatives concurring therein:

Section 1. The following proposition to amend the constitution of the state of Kansas shall be submitted to the qualified electors of the state for their approval or rejection: The bill of rights of the constitution of the state of Kansas is hereby amended by adding a new section to read as follows:

“§ 22. Regulation of abortion. Because Kansans value both women and children, the constitution of the state of Kansas does not require government funding of abortion and does not create or secure a right to abortion. To the extent permitted by the constitution of the United States, the people, through their elected state representatives and state senators, may pass laws regarding abortion, including, but not limited to, laws that account for circumstances of pregnancy resulting from rape or incest, or circumstances of necessity to save the life of the mother.”

Section 2. The following statement shall be printed on the ballot with the amendment as a whole:

“Explanatory statement. The Value Them Both Amendment would reserve to the people of Kansas, through their elected state legislators, the right to pass laws to regulate abortion because there is no Kansas constitutional right to abortion or to require the government funding of abortion.

*“A vote **for** the Value Them Both Amendment would reserve to the people of Kansas, through their elected state legislators, the right to pass laws to regulate abortion because there is no Kansas constitutional right to abortion or to require the government funding of abortion.*

*“A vote **against** the Value Them Both Amendment would make no changes to the constitution of the state of Kansas and could prevent the people, through their elected state legislators, from regulating abortion in many circumstances. It would leave in place the newly discovered right to abortion first recognized in 2019.”*
